## Our Motto

Our motto is “We Care” because we do, genuinely care about our clients, our staff, and our community. That is our personality and that is what our business is based upon.

## Our Core Services

### ■ PERSONAL CARE

Our Personal Care service works around your regular routines and ensures that the support is tailored to your specific requirements, and provided via our fully trained care staff, delivering discreet and professional personal care in the way that promotes your independence, dignity, and safety.

### ■ DEMENTIA CARE

We offer a different approach to dementia care at home, focusing on creative and innovative ways for both our clients and client’s families to live well with dementia. Our highly committed dementia care team has a passion for making a difference in peoples’ lives.

### ■ PALLIATIVE CARE

We all understand how distressing it can be to see a loved one being affected by a terminal illness. That is where we can help, providing specialist day-to-day support so that you and your loved one can make the most of your time together.

### ■ COMPANIONSHIP

Our companionship service is most suited to individuals who will benefit from having the reassurance that someone is there with them to offer support when it is needed. It also provides peace of mind for family members who require a few hours to themselves or are unable to regularly visit, as they know their loved one is being cared for.

## Our Additional Services

### ■ RESPITE and HOLIDAY CARE

With our respite care and holiday care services, you'll be able to take a break from hectic daily responsibilities and let someone else help you out with the work. Whether that means taking care of your loved one while you're away or going on a holiday together with your loved one, our carers are ready to assist.

### ■ AWAKE/SLEEP-IN CARE

We all know that a good night's sleep is essential for our everyday wellbeing and even more important for the vulnerable.

With this in mind, care and support throughout the night in the form of a night-time care worker service can be equally as important as providing care throughout the day.

### ■ ASSISTANCE WITH TECHNOLOGY

Older adults can sometimes find it difficult to understand how modern technology works, or how it can be used to their benefit. Midian Care can offer face to face help and support in using technology such as connecting with family and friends on Facebook or making video calls through to ordering groceries online for home delivery.

### ■ LIVE-IN CARE

Professional live-in care from Midian Care is an affordable and stress-free way for the elderly to continue living in the best possible environment – at home. Our warm, caring professionals help out with all the things that you – or your family member – find difficult.

### ■ DOMESTIC TASKS

You or your loved one may be starting to struggle to do the things that you need to do, in order to maintain your household and therefore might need some extra support.

Regular home visits can start from just 30 minutes a week to several hours a day depending on the amount of support that you desire.

Don't stress if you have pets. We're a pet friendly service provider.

Care designed  
around you,  
just for you.

#### About Midian Care

At Midian Care we strongly believe everyone should have the freedom to choose how they want to receive care and support, providing them with the opportunity to live life as fully and independently as possible.

We offer a comprehensive range of personal care and associated services that are designed to meet the needs of clients; older people, those with a disability, and people who need assistance as a result of illness or injury and who wish to continue living in their own homes and communities.

#### *What makes our homecare services different?*

We put you first, every time. Our aim is to provide the standard of care that we would want for our own families.

Our services are flexible and respond to your changing priorities and needs. We help you to stay in control of your own care as far as you are able.

Midian Care will create a support package to suit the individual, designed to ensure that you remain fulfilled, retain your independence and dignity whilst providing
